

Tech Spec Inc.

3781 Rockwell Drive
Midland, MI 48642

TSI takes pride in being the **largest USA stocking distributor** for both **Hiwin** and **Zimmer** products. Many items are kept in stock for quick processing and reliability.

HIWIN®

ZIMMER
group

Hiwin linear profile guides pair perfectly with the Zimmer clamp & brake components for a complete package from one supplier.

Centryco

Specializing in bellows and cover guards to prolong the life of equipment being used. Offering a diverse line of protective products for a large range of applications.

Centryco

Dynatect

Offering protective devices including their very own Thermic-Weld cover, round bellows, boots, roll up covers, and way protectors.

DYNATECT

Emcor

Designing, engineering, producing, repairing, and refurbishing ball screws and other linear motion components.

EMCOR

GAM

Couplings and gear reducers available for many diverse applications and environments.

Gerwah

Specializing in high quality couplings for driving technology and conveying engineering.

GERWAH

Hiwin

Full line of precision ball screws & supports, linear guideways – rails, bearing blocks and accessories, motors & drives, positioning measurement guides, cross roller bearings, ball splines, harmonic gearing systems, along with additional linear motion & motion control products and accessories.

HIWIN®

Igus

Providing solutions for cable and hose protection on your applications. Variety of stocked items + custom solutions for cable & hose carrier tracks.

IKO

Offering a broad line of linear motion products, ball splines, cam followers, linear and rotary ball bushings, spherical bearings, rod ends, ball joints, needle roller bearings, thrust roller bearings and roller cages.

IKO

KabelSchlepp

Featuring a line of hose and cable management systems with materials ranging from plastic to steel.

Lee Linear

Competitively priced hardened and ground shafting. Lee also provides roller bearings and pillow blocks that are well-suited for applications with contaminated environments.

Neugart

Planetary gear reducers / gearboxes utilize precision honed teeth to provide a low backlash, quiet operation (<65 dB), and a long service life. Available in straight and right angle versions, custom inputs, outputs and reduction ratios are available.

Nippon Bearing

Manufacturing high quality shafting, ball bushings and housings, profiled blocks, rail systems, cross roller slides, and ball splines.

NSK

A leading producer of precision ball screws and linear guides. Many items are available off the shelf, in standard or stainless steel, and in a variety of styles and sizes.

Pacific Bearing Co.

Providing quality shafting, a large assortment of block and rail assemblies, ball bushings, Simplicity self-lubricating bearings, and roller pillow blocks to meet many different linear motion requirements.

PBC LINEAR

Raco

Inventor of the electric actuator and the leader in manufacturing of quality electric linear actuators, drive systems, and planetary gearboxes.

Ringfeder

Specializing in keyless shaft-hub locking devices and also offering internal clamping and external clamping locking devices.

Roton

Manufacturing of high quality Acme lead screws, lead screw nuts, ball screws and ball nuts for power transmission applications.

ROTON

Worner

Focusing on system components for transfer systems of assembly and production lines. Separating stops with and without damping, angle dampers, index cylinders, position sensors, accessories, and more.

Wörner

Zimmer Group

Zimmer's handling technology division covers gripping systems and material handling components for all types of industries and applications. Zimmer's linear technology segment covers linear clamp and brake units for profiled guideways and shafting, Zimmer also supports a product line for shock absorbers and damping technology.

ZIMMER
group

Tech Spec Inc. was founded in 1981 as an industrial supplier and has continued to be a trusted source for companies for the last 35+ years.

Specially trained sales representatives are here to assist your applications with technical support, reliable deliveries, and great customer service.

Tech Spec Inc.

See what our team can do for you, today!

What makes TSI a preferred choice for customers?

- Reliable service
- Knowledgeable staff
- Thousands of items stocked
- After-hours emergency service available

Allow us to provide our best support.

- Traveling sales team
- Manufacturer catalogs
- Spec / data sheets
- CAD drawings & models
- Engineering assistance
- Manufacturer support

Looking for options?

We service customers with the best available, including product interchanges from various high-quality brands. If lead time is unsatisfactory or an item is obsolete, contact our shop for assistance!

Product Coverage

- Linear Guideways
- Linear Clamps & Brakes
- Gripper Modules
- Robot Accessories
- Cable & Hose Carriers / Protection
- Ballscrews & Support Bearings
- Ground Shafts
- Ball Splines
- Protective Covers / Bellows Covers
- Gearboxes
- Couplings
- Acme Screws
- Self-Lubricated Bearings
- Roller Bearings
- Cam Followers
- Linear Bushings
- Transfer System Stoppers & Dampers
- Cross Roller Bearings
- Shock Absorbers
- Linear Actuators
- Torque Motors
- Linear Motors

*Don't see what you need?
Call TSI to see if we can source it for you!*
